Newsletter no 4

On the 14-15th March 2013, the 5th VERNE meeting took place in Zlín, Czech Republic. Participants were hosted at Tomas Bata University, Department of Enterprise Economics.

The objectives of the meeting were:

- to discuss the content and structure of the training course;
- to evaluate the training course
- to discuss project management issues.

The training course will be available soon on the project's website.

Additionally, the participants had the opportunity to become familiar with the history of Zlín, the city famous for the businessman Tomas Bata. A tour was organised in the skyscraper 21, the former official seat of the innovative BATA shoe company. From the top terrace, it is easy to notice the influence of the company on the urbanization.

On Friday afternoon, the partners could take part in an excursion to Velehrad, about 30 km from Zlín, in one of the most picturesque corners of Moravia. Velehrad is an important spiritual center, a destination of frequent ecclesiastic pilgrimages, gatherings and Cyrillo-Methodian celebrations.
